**Status:**

Additional

**Purpose:**

- To enhance the learning opportunities in school through use of the internet
- To develop good practice and responsible use of the internet by staff, students, parents, governors and the wider community, so that all internet use is appropriate to school activity or students' education
- To ensure that only educational discussion services are available in school to students
- To ensure that the computer systems are only used for purposes agreed by the school
- To ensure that staff are aware of the duty to provide protection for students
- To ensure close monitoring of authorised use and passwords
- To respect copyright rules and other legal requirements including data protection & software licensing

**Who / what was consulted**

NAACE (National Association of Advisers for Computers in Education),

HGfL (Hertfordshire Grid for Learning)

Data Protection Act

Staff and Governors

**Roles and Responsibilities**

There will be a named member of staff responsible for monitoring internet accessibility, e-safety and use.

**Arrangements for Monitoring and Evaluation**

This policy will be reviewed by the F & R committee every two years.
