

To The Employer

Year 8 Work Shadowing

Work Shadowing involves a student in Year 8 spending a day with a member of your staff, observing their role and experiencing industry from a personal point of view. We would like to ask for your support in providing one of our students with the opportunity to 'shadow' one of your employees on Wednesday 25th January 2023.

A Better Future

A close relationship with education can be a sound investment. Today's young people will shape your future in many ways – as employees, customers, consumers and citizens. The Marlborough Science Academy needs your help to provide our students with a firm foundation for adult life. Young workers will need to be well educated, reliable, flexible and mature. They should make better employees if they have made informed decisions about their employment. Employers' involvement with schools means that teaching can be both practical and relevant to the future demands of life at work and at home.

Following the day's Work Shadowing all students will be expected to present a verbal report on their experience. This report may form part of their assessment of communication skills in English.

I hope you can give your support and should you require any help in organising this event or need any points clarifying, then please contact the school.

Yours sincerely

Ms A F Thomson
Headteacher
