

21<sup>st</sup> November 2022

Dear Parent/Carer,

I am writing to inform you that your child's end of term maths assessment will take place on 14th December 2022 during period 2. The assessment will be done in test conditions and will take the duration of the lesson. It is important that students are fully equipped for the assessment (pen, pencil, ruler and scientific calculator).

In order to help your son/daughter prepare for the assessment, their maths teacher will be setting revision tasks on the google classroom. These are in the form of revision videos and students will need to be logged in to their google account to view these. Please encourage your son/daughter to use these resources and bring in all revision done at home, so class teachers can issue rewards.

Students will receive their results and feedback in January, and the results of the assessment will be communicated home through the gradecards. As we continue to review setting throughout the year, the assessment will form an important part of this decision. As always, you will be contacted if we are looking at a set change for your child.

Please do not hesitate to contact me with any further questions,

Yours sincerely

Miss Smith  
Head of Maths
