YEAR 11

YEAR 10

YEAR 9

Summer Assessments Commence

Paper 3 Preparations: Pre-release document produced.

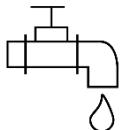

The Changing Economic World revision

Ecosystem revision

River Landscapes revision

Preparation for A Level geography

Recap map skills and data analysis techniques

Resource Management Revision

Urban Issues revision

Coastal Landscapes revision

Living with natural hazard revision.

Topic 7: Resource Management

How has a growth in population size and middle-class consumption influences resource security?

How and why are some areas of the world in extreme food insecurity?

How can we manage food insecurity with a growing population?

Revision Season

What are the worlds most important resources?

Why is food such an important resource?

How can we manage food insecurity with a changing climate?

Autumn Term PPE

Can we effectively manage the threats to our coastal environments?

What distinctive landforms are found at the coast and how are they produced?

Topic 6: UK Coastal Landscapes

How are why do rivers flood?

How do rivers change from source to mouth?

Topic 5: UK River Landscapes.

What are the challenges with the north south divide?

What is the north south divide?

Why are coastlines under threat from sea level rise?

Why are coastal environments important?

Can river flooding be effectively managed?

What distinctive landforms are found in river systems?

Why are rivers important?

What measures can be put in place to level up the UK's uneven development?

What is development and how is it measured?

Why are some countries less developed than others?

Case Study: Nigeria (NEE)

What are the opportunities and challenges of Nigeria's development on people and the environment?

Can Nigeria continue to develop at this pace?

How has the UK developed economically over time?

What sector do most people in the UK work within? How has this helped our economy grow?

How can we strive to reduce the development gap between nations?

Why and how is Nigeria developing?

How is Nigeria's development impacting the physical environment

Case study: UK (HIC)

Why is most of the UK's wealth within the south east?

Topic 4: The Changing Economic World

Field Trip (year 9 summer term): Stratford Olympic park (regeneration).

What are the opportunities and challenges for developing in rainforests?

What are the key characteristic of tropical rainforests?

How can cold environments be sustainably used?

What are the key characteristics of Svalbard?

Case Study: Svalbard

Year 9 PPE (summer terms) Single paper.

Can we effectively manage deforestation in tropical regions?

How and why are tropical rainforests under threat?

Case Study: Tropical Rainforests

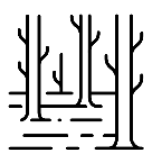

What are the opportunities and challenges of developing in Svalbard?

How do the characteristics of the world's biomes change?

Case Study: Lagos (Nigeria)

How has urban growth lead to opportunities and challenges for the people of Lagos?

Case Study: London (England)

What are the opportunities and challenges of London urban growth?

How can we develop future cities to be more sustainable?

What is an ecosystem?

What is the relationship between biotic and abiotic elements within ecosystems?

What are the push and pull factors leading to urban growth?

Why is their mass migration to Lagos?

How can we effectively manage the effects of urban growth in Lagos?

Why is London a growing city?

Why have parts of east London been regenerated? How successful has this been?

Topic 3: Ecosystems

Why do more people live in urban areas?

What is anthropogenic climate change? And how has it been caused?

What are the impacts of tropical storms of people and the environment?

How do we manage the effects of earthquakes?

What is the difference between a natural hazard and disaster?

Topic 1: Living with Natural Hazards:

Topic 2: Urban Issues.

How can we mitigate and adapt to the impacts of climate change?

How can we effectively manage the effects of tropical storms in LICs and HICs?

How and why do tropical storms form?

What are the impacts of earthquakes on people and the environment?
- Haiti 2010
- Japan 2011

What is the earth composed of, and how does this influence continental drift?
