

March 2024

Dear Parents/Carers,

We apologise for the delay in sending this letter out to you however we are excited to inform you that we are now able to host the second part of our own Speed Apprenticeship Day. The aim of this event is to provide our Year 8 students with insight into the world of apprenticeships and the various career opportunities available.

During the event, we will have guest speakers from Herts Fire and Rescue and AECOM, who will share valuable information about their respective careers and the apprenticeship opportunities within their organisations. The sessions will last for an hour, and students will attend in their form groups. It is important to note that all other lessons for other students will continue as normal. A timetable will be shared with students in due course.

Unfortunately BAM Construction were unable to make the new event date which is disappointing, however please be rest assured that the students will be seeing BAM Construction in Year 9 for the Insight into Industry Day so will certainly not miss out.

Due to logistics, we had to divide the event across two days and I am pleased to say that Forms 8LI, 8LP, 8MT and 8PA will now be involved on **Monday 13th May 2024**.

We believe that this event will provide valuable exposure to the world of apprenticeships and provide students with information about possible future careers.

If you have any questions or require further information, please do not hesitate to contact us at Careers@marlborough.herts.sch.uk

Thank you for your continued support.

Kind regards,

Mrs N Golds

Personal Development Lead and Careers Coordinator
