

19th October 2022

Dear Parents and Carers,

As part of our whole school Personal Development Curriculum, we are keen to ensure our young people are able to receive the most up to date information, education, support and guidance regarding real world concerns.

As part of this, we have collaborated with the NSPCC to support our online safety education.

We have secured through this partnership a parent and carer webinar open to all who care for and support our young people.

The NSPCC will be delivering the first live webinar for The Marlborough Science Academy on Tuesday November 15th 6:30pm-7:30pm. The workshop will be focussing on the topics of:

- Core content and use of the internet including social media
- Mental Health and the digital world
- Cyberbullying
- Use of Parental Controls

There will also be an opportunity for a question and answer session at the end of the workshop.

If you are interested in attending the event, please complete the '@Registration of Interest' form via <https://forms.gle/qKp2IGxTjGpbB8xc7>

We will then ensure log on details are sent to you nearer the time. The webinar workshop will be delivered via Microsoft Teams. You will need a mobile device / laptop to access the event. If you would like to join the event but would have difficulty accessing, the webinar please contact me at school and we will explore ways to support access.

If you have any further questions please contact me directly at school.

Yours Sincerely

Naomi Walker
Associated Leader
